DETAILED ACTION

Allowable Subject Matter

1. Claims 1-3 are allowed.

The following is an examiner's statement of reasons for allowance: Claims 1-3 are allowed since certain key features of the claimed invention are not taught or fairly suggested by prior art. **In claim 1**, "a scanning electrode drive circuit for applying an initializing waveform to the scanning electrodes to begin an initialization period for the plasma display device, said initializing waveform being applied to the scanning electrodes after a lapse of a specified period of time, said specified period time occurring after supplying power to the plasma display panel, wherein the scanning electrode drive circuit includes a floating circuit, and the specified time period includes a first time period until supplying power to the floating circuit after supplying power to the plasma display panel and a second time period after supplying the power to the floating circuit." The closest prior art Kang et al. (6,853,145 B2) teaches a plasma display includes a drive signal having an initialization signal comprising a scan driver supplies a rising ramp waveform in a set-up interval and a falling ramp waveform in a set-down interval, however, singularly or in combination with other prior art, fail to anticipate or render the claimed limitations, such as, "a said initializing waveform being applied to the scanning electrodes after a lapse of a specified of time, said specified period time occurring after supplying power to the plasma display panel, wherein the scanning electrode drive circuit includes a floating circuit, and the specified time period includes a first time period until supplying power to the floating circuit

after supplying power to the plasma display panel and a second time period after supplying the power to the floating circuit obvious.”

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
